

Palisades Supports Austin Habitat for Humanity

March 17, 2022

It was a great day of service and camaraderie as the Palisades team was hard at work at the Austin Habitat for Humanity build day.

Austin Habitat for Humanity is an organization dedicated to providing decent affordable housing and homeownership opportunities to low-income residents. As home prices have risen across the country, the cost of housing as a percentage of income has risen to unsustainable levels for many hardworking low-income families (especially here in Austin). Often, these individuals perform mission critical jobs and services in our communities, such as firefighters and first responders, teachers, and other roles we cannot do without.

Austin Habitat for Humanity has been serving the community for over 35 years having provided more than 830 homes, and repairing more than 350 existing homes, for low-income homeowners, including seniors, veterans and people with disabilities.

We are proud to support our community here in Austin and the work being done by Austin Habitat for Humanity. The Team is looking forward to our next build day coming up this June.
